DETAILED ACTION

Election/Restrictions

1. Applicant's election of Species J, figure 13 in the reply filed on May 25, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 3, 6, 7, 13 and 14-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on May 25, 2005.

In the reply, applicant indicated that claims 3, 5, 7 and 13 are readable on the elected species. Claim 3 recites "a reservoir housing" which is not readable on the elected species. It appears to be readable only on the non-elected species of figure 1. Claims 6 and 13 recite "a tube extending toward the bottom of the container and up through the cap" which appears to be readable only on the non-elected species of figures 4 and 5. Claim 7 recites "a closure for the exterior release end" which appears to be readable only on the non-elected species of figures 9 and 11.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3752

4. Claims 1, 2, 4, 5 and 8-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 8 and 11, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

5. The term "small" in claims 4 and 9 is a relative term which renders the claims indefinite. The term "small" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is uncertain what size diameter is being defined by the term "small."

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1, 2, 4, 5 and 8-12 rejected under 35 U.S.C. 102(b) as being anticipated by Fuld et al. (2,251,734).

Fuld discloses a temperature activated scent wick comprising: a container 56; a cap (bottom base of container 56); a temperature buffering scent reservoir 86, an absorbent scent wick 78.

Art Unit: 3752

8. Claims 1, 2, 4, 5 and 8-12 rejected under 35 U.S.C. 102(b) as being anticipated by Bundy (2,991,517).

Bundy discloses a temperature activated scent wick comprising: a container D; a cap 32; a temperature buffering scent reservoir 33, an absorbent scent wick B.

9. Claims 1, 2, 4, 5 and 8-12 rejected under 35 U.S.C. 102(b) as being anticipated by Ohayon (5,810,253).

Ohayon discloses a temperature activated scent wick comprising: a container 32; a cap 33; a temperature buffering scent reservoir 35, 36, 38, an absorbent scent wick 40.
